## **Cable and Fiber Technician Wanted**

Becoming a Cable TV and Fiber Optic Installation Technician can be a very rewarding career for those who are eager to help others, good with electronics and communicating to others how to use, good time management skills and a positive can-do attitude.

### **Job Description:**

- Install, program and calibrate cable equipment
- Verify TV, Internet, and Phone systems for correct functionality
- Troubleshoot cable wiring, splitter configuration and cable plant levels
- Enhance the customer experience by delivering exceptional customer service
- Ensure each job is performed to company standard
- Notate installation, service and repairs
- Educate customers on all services and equipment installed

### **We offer:**

- Full-time work
- Paid training and long-term career
- Direct deposit weekly
- 7 Paid holidays a year
- Paid time off
- 401K (optional enrollment and 3% company match)
- Employee discount if you live in service area
- Ongoing instruction to keep you up to speed on new technology

Pay: \$19 depending on experience  
Monday – Friday (8:00AM – 5:00PM \*9-hour day=paid breaks and lunch)  
Overtime is time and half. Note: New hires have frequent performance evaluations making wage increase fast and easy for great workers.
